Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claim 15 is rejected under 35 U.S.C. 103(a) as being unpatentable over Hartigan in view of Fligsten et al.

Hartigan teaches a safety restraint for a vehicle including a rectangular flexible sheet, a lower edge including two spaced attachment devices (36), a rigidifying strip (16a) along an opposite parallel edge from the edge with the two spaced attachment devices, and a buckling assembly attached to the rigidifying strip including one attachment device 26 and adjustment hardware 24 for adjusting the position of the attachment device 26 substantially as claimed except for the attachment devices being rings.

The patent to Fligsten teaches a restraint for a vehicle including attachment devices comprising rings (attached to 28) to be conventional in the art. It would have been obvious to one of ordinary skill in the art to replace the hooks of Hartigan with the rings of Fligsten thereby providing the obvious advantage and predictable results of attachment to a different portion of the vehicle and a simplified attachment mechanism.

Note that the straps and buckles, the male seat belt buckle and center shoulder harness are not a part of a claimed combination, but rather are objects of intended use and are not afforded patentable weight to the article claim to "a safety restraint".

Response to Arguments

Applicant's arguments filed 8/28/08 have been fully considered but they are not persuasive. Applicant has argued that the language "including" is closed language; however, this is not the case. "Including" is not exclusionary language as "consisting of" is. The rejection is proper as stands.
